TAUP Needs Your Support Today

TAUP needs your support today. There will be informational picketing at Mitten Hall from 3:00 PM to 4 PM, outside the CST winter graduation ceremonies. Please come and show your support for TAUP and its work for a fair contract.

Yesterday about 50 of your colleagues came out to demonstrate their solidarity with the union and to get out our information to the general public outside the CLA graduation. Many attendees at graduation read our flyer and expressed their support for TAUP's negotiations and the union's dedication to quality education.

Informational picketing is just that, a way of bringing the TAUP message about contract negotiations to the public. The "picketing" involves only a group of people walking quietly carrying signs with a message. It is not disruptive, nor does it harass anyone attending the event where the demonstration takes place. Most importantly, in no way does it stop anyone from entering or participating in the activity in question.
